I have had a fantastic deal on a [cheap used BMW](#) . I saw a 5 Series on Autotrader which was advertised at Big Motoring World in Kent. After making the appointment to test drive it, I went down to the dealership the following day. This car was exactly as described in terms of specification and the vehicle paintwork and interior reflected the photos on their dealer website. Needless to say I placed a deposit on this car after verifying the service history and owner details. I was lucky to find a used BMW so cheap in such immaculate condition.
